Grinding Heads

Wel-Co produced its first grinding heads in the early 1980's. We have utilized this success through the years to further our knowledge, expertise, and experience in the grinding and grooving industry. Today, Wel-Co has the ability to produce exceptional blades providing some of the lowest production and blade costs in the industry.

Application Specs

- A-49 Hard aggregate
- A-54 Soft to medium aggregate
- A-55 Limestone or other soft abrasive aggregates
